

RICE CAKE MACHINE – mod. XP-CAKE6

- COMPACT SIZE 680 x 1500 h. 2000
- NEW SOLUTION, HIGH TECHNOLOGY
- SUITABLE FOR ALL TYPES OF CEREAL
- MICRO DOSAGE OF RAW MATERIAL.
- HIGH PERFORMANCE PRODUCTION
- TOTALLY AUTOMATIC
- CUSTOM MACHINE
- EASY TO USE
- EASY TO CLEAN

italian design

Cakes Machine mod. XP CAKE 6 is constructed with the aim to transform the raw materials of cereals a food with geometric shape triangular, round, square, rectangular.

-Types of cereals: wheat, rice, barley, corn, and various mixtures of cereals.

DESCRIPTION PROCESS

The cereal is transferred from the hopper to the mold ,through a horizontal system power pneumatic control. The dosage is volumetric.

The mold closing, shatters grains which, by cooking for a short time, favors the expansion of the cereal thus forming into cakes. The cakes are ejected, discharged on a conveyor and channeled to the packaging department.

AVAILABLE MODELS

CAKE MACHINE:

- OPERATOR VERSION
- VERSION INTEGRATED TO PACKAGING LINE
- NEW VERSION EASY CLEANING (mould opening 180 mm) **PATENT PENDING**
