### Unique Water Cooling System

HLT-700XL is equipped with a water cooling system to prevent dough from degradation caused by heat.

**Requires a Little Space and Easy to Operate, Clean, Assemble, and Maintain.**

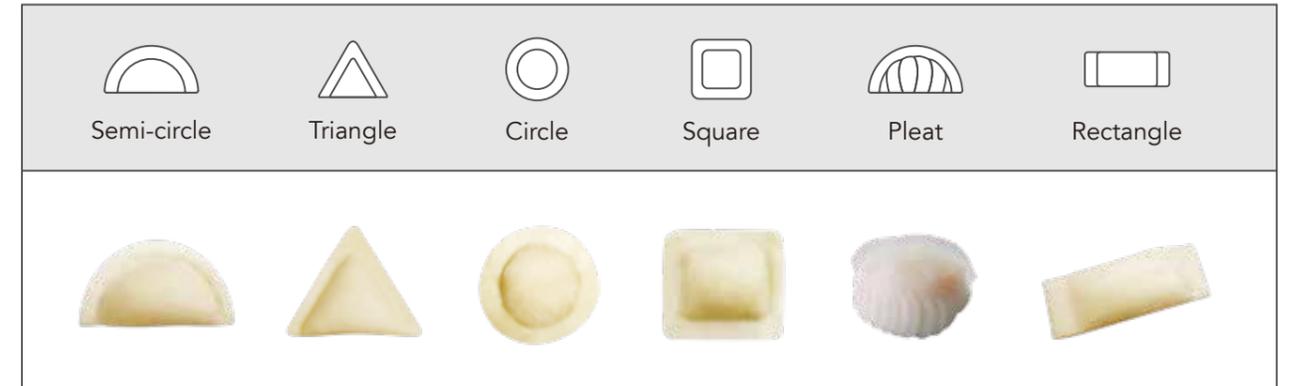

### The Built-in IoT System

The IoT (Internet of Things) have been installed to ensure that the production can be overseen by managers in real time on a mobile device, and the data can be collected and processed through Big Data Analytics to support decision making. We have also installed a maintenance reminder program to ensure consistent productivity.

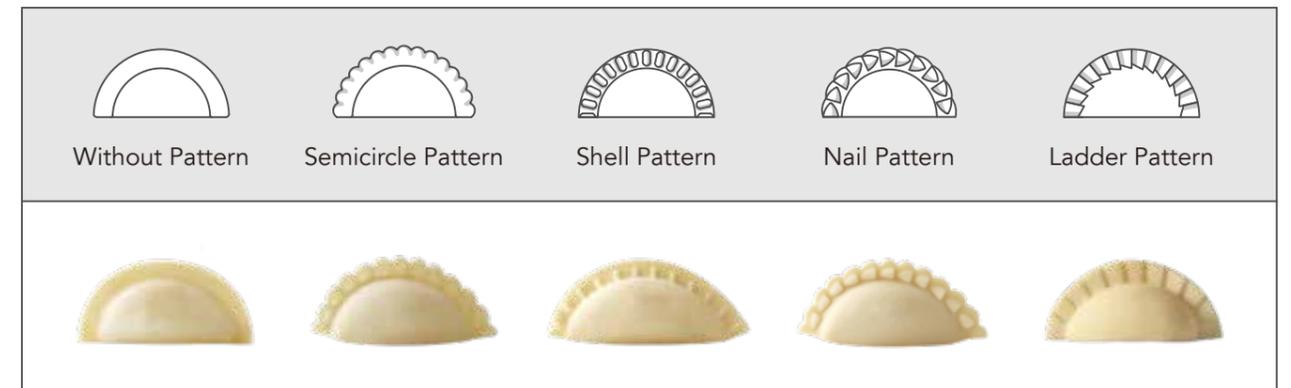

### CUSTOMIZED FORMING MOLD

We can customize the mold according to the shape, texture, weight, size of your product and also provide molds with different patterns for you to choose from.
