AccuSleever

Automatic Tamper Evident Bander

The AccuSleever places heat shrinkable tamper evident bands on containers. Containers move through the AccuSleever on a conveyor at rates up to 65 containers per minute. With an adjustable C-frame, the touch screen controlled AccuSleever is fast and affordable. An AccuSleever is the perfect choice for low to medium volume production lines. Coupled with a Phase Fire G7 heat tunnel the AccuSleever is an attractive tamper evident banding solution

Shrink Sleeve Labels

Printed shrink labels are a great way to add high impact color messages to your container. In many cases the only way to economically label custom containers with aggressive contours is with a sleeve labeling system. Labels come in a variety of types such as PET, PLA, PVC, and OPS.

Sleeve labels can also be used as tamper evident seals complete with perforations for easy removal. They can also be used to form multi pack bundles. No other labeling method provides as wide a range of color, detail, and application options as a Shrink Sleeve Label.

Dimensions:

Length: 72" (182.9 cm)

Depth: 17" (43.2 cm)

Height: 44.5" (113 cm)

Weight:

Approx. ~120 lbs. (158.75 kg)

Sleeving Speed:

Up to 65+ CPM*

Lay Flat Size:

16mm - 95mm

Container Size:

0.750" - 2" diameter (1.9 cm - 5.8 cm)

Electrical:

220 VAC, 3 Phase, 50 Hz

Air Requirements:

100 PSI

*1 Sleeving speed is dependent on container and sleeve dimensions.
