

Tray & Carton Filler For Ishida Weighers!

Our Dual Axis Funnel Follower transfers precisely weighed portions of dry, fresh or frozen products from your Ishida weigher into trays or cartons on a continuous motion horizontal conveyor.

To prevent spills and maximize fill time, funnels dip into and follow each container. The system is easily adjustable for different speeds, tray sizes and centerlines. Choose from models for single and double lane conveyors.

- No spill, continuous tray or carton filling
- No Tray-No Fill operation eliminates product losses and messy cleanups
- Easily adjusts for different containers, centerlines, speeds
- Designed & built using American Meat Institute sanitary guidelines
- Stainless steel product contact parts, embossed and electropolished hoppers, and no tools removal of hoppers streamline sanitation
- Lineshaft or independent servo drive systems available

Shown with safety covers removed
