

# HOCKMEYER

**PROVIDING PROCESS SOLUTIONS AROUND THE WORLD**

## DRUM MIXER

The Drum Mixer provides Hockmeyer's unparalleled mixing technology in a convenient and compact design suitable for wall mounting or free standing with the addition of support legs. The drum mixer is engineered specifically for a standard 55-gallon drum but can process batches as small as 3 gallons in a 5-gallon pail. It can accommodate any blade style needed to get the best dispersion in the least amount of time.

- 15 HP explosion-proof motor
- 138" overall height - 36" stoke - 22" width
- Variable frequency inverter
- Unit is mounted and counterbalanced on the column for manually raising and lowering the machine
- 8" Diameter 'D' style blade
- Start and Stop push buttons and a speed potentiometer
- Safety features include a height limit switch and can lock

### OPTIONAL

- Legs available for floor mounting
- Small Batch Processing - can be mounted to a rail system, which would allow the mixer and mill to slide from side to side to service multiple drums
