

FTB608-C

CAPSULE CARTONING MACHINE

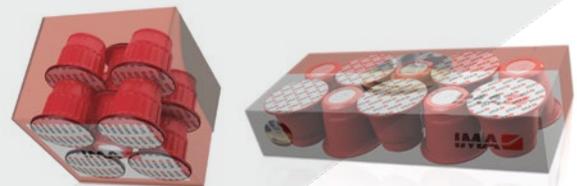

CARTONING MACHINE FOR ORIENTED CAPSULES UP TO 40 BOXES/MINUTE

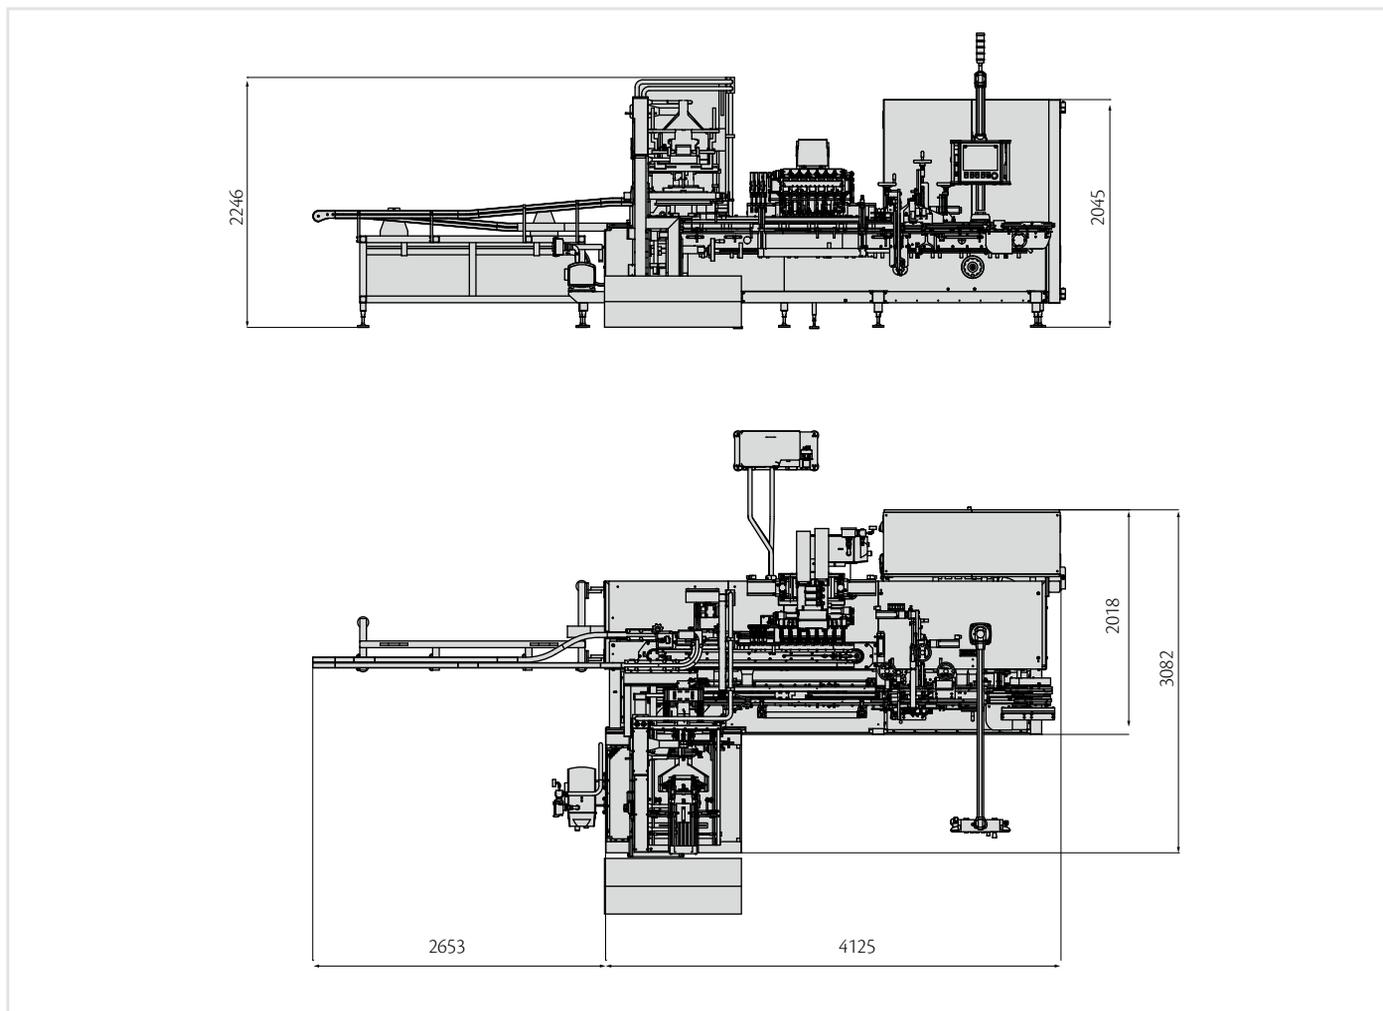

The FTB608-C is a scaled version of the FTB577-C machine. It is equipped with a single forming head with positive display management. Starting from flat blank carton, there is the possibility to pack in a single box multi product flavors with a dedicated feeding system design. A single flat blank magazine is available on the machine.

- As a turnkey solution, in line with the 590 capsule filler, the FTB608-C offers countless plus points: compact footprint, user-friendly operator interface, high blanks capacity quick size changeover and requires minimal maintenance.
- With fully servo-driven movement, the FTB608-C ensures excellent production efficiency and extreme flexibility regarding the product layer configuration.

- A key feature regard the minimal use of void space, enabling highly compact packaging solutions to save space and cut costs.
- The FTB608-C machine completes the range of cartoning machines and is designed to run in line with the filling machines.
- The FTB608-C handle American and Espresso coffee capsules, tea and soluble beverages in general.

TECHNICAL DATA

		MIN.	MAX.
Product range	L	100	200
	W	50	200
	H	30	150
Production	Over 40 ppm		
Average power consumption	10 kW		
Operating pressure	6 bar		
Maximum air consumption	400 NI/min		
Weight	2800 kg
