

# A50 OVER WRAPPING

AUTOMATIC OVER WRAPPING MACHINE

This machine is specifically designed for the food, tea and cosmetic markets, meets the request of reduced overall dimension, accessibility, a very easy size changeover procedure and maximum reliability.

It is possible to automatically wrap cartons, trays, bundles and other parallelepiped products with heatsealable materials from reel of cellophane, PP, PVC, ecc.

This automatic wrapper is produced with mechanical movements to guarantee reduced maintenance.

The machine is equipped with PLC as standard and the following main groups:

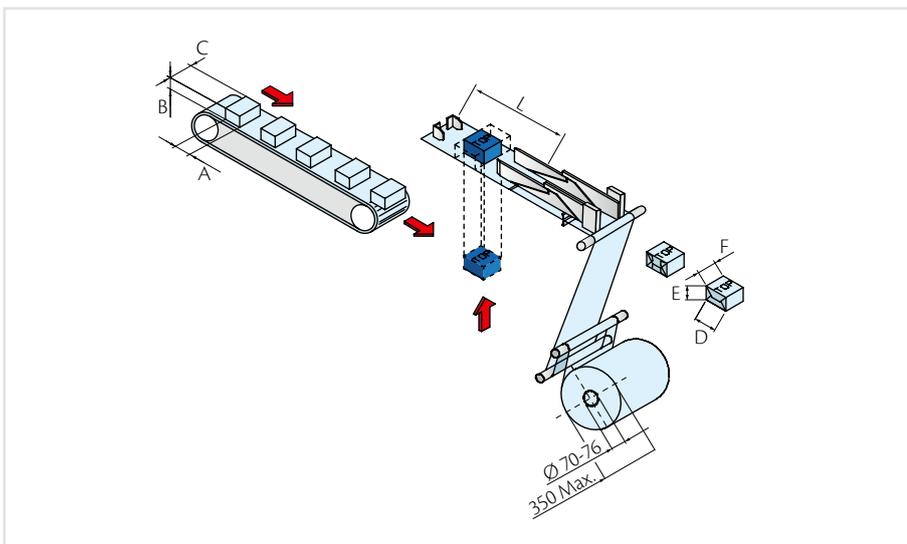

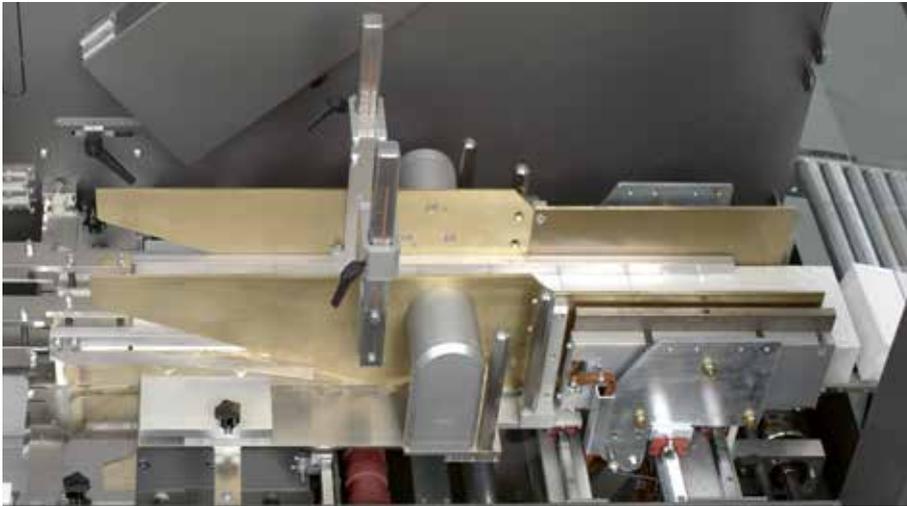

- Electronic system, noise level and operator's guard according to European standard
- Film unwinding by means of driven drums to move the film under the cutting guillotine knife
- Innovative film transport system designed to allow the use of difficult and thin films
- Lateral folding box with second and third fixed folders
- Lateral reciprocating heatsealing plates
- Centralised adjustments equipped with digital indicator for size changeover
- Reel holder with quick release and fixed stop to facilitate the reel replacement

## OPTIONAL GROUPS

- Tear tape application
- Electronic film unwinding
- Printed film registration
- Reel trimming unit
- On edge transversal sealing
- Film perforation
- Wheels for machine displacement
- Lateral sealing belts
- Use of not heatsealable material, e.g Kraft Paper

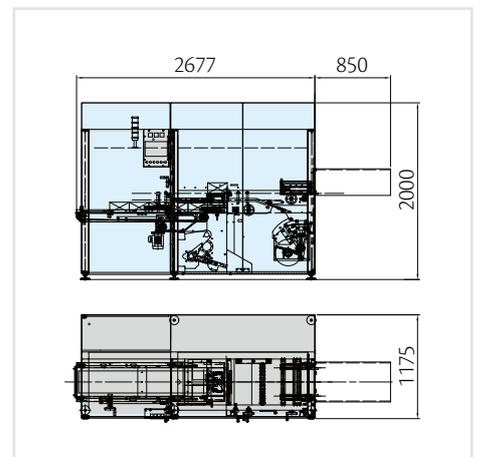

# TECHNICAL DATA

	A	B	C	D	E	F	H	L
Min.	30	25	60	30	25	60	100	120
Max.	220	120	320	220	120	320	420	700

Production Capacity	60 cycles/minute
Compressed Air	5/7 bar
Installed Power	6,7 kW
Air consumption	75 NI/min
Gross Weight	1800 kg
