

CLINIPACK

MINIMASTER WITH THE HEART OF A GIANT

CLINIPACK MINIMASTER WITH THE HEART OF A GIANT

THERMOFORMING MACHINE
FOR CLINICAL TRIALS AND
SHORT PRODUCTION RUNS,
SUITABLE FOR PACKING OF
TABLETS, CAPSULES, DRAGEES,
AMPOULES, SYRINGES AND
LIQUIDS.

IMA-PG India Private limited has widened its range of blister packaging machines with the clinipack launched in 2002. It is a very compact economical and flexible blister machine, particularly suitable for clinical trials and small production runs. It is targeted towards the research and development side of the pharmaceutical industry and small size batch requirements. The Clinipack is very versatile machine with a possibility of quick tool less change over of size parts in less than 25 minutes as minimal parts need to be changed. The index is by servo.
