

ILS-1 IN LINE SORTER

Designed for maximum flexibility with the largest range of bottle sizes, the ILS-1 can be changed over very quickly and ready for the next production run.

With a large integrated bulk hopper, container ionization, cleaning and bottle inspection, the ILS-1 has everything required for the most efficient packaging line.

The machine is fully guarded providing operator safety and very low noise emission while still allowing complete visibility of the entire operation.

The integrated inspection / rejection system makes certain that any upside down or fallen bottles are automatically returned to the machine hopper. This eliminates the need for the operator to recycle the bottles and provides maximum efficiency.

The machine can be installed in new or existing packaging lines; easily adapting to most conveyor designs.

MAIN FEATURES

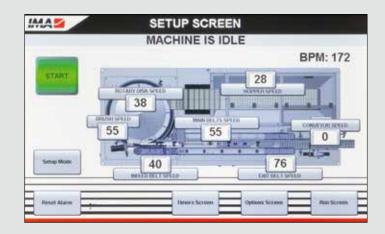

- GMP DESIGN WITH FULLY INTERLOCKED GUARDING
- VERY LOW NOISE
- INTEGRATED 525 LITER (18.5 FT³) BULK
 HOPPER WITH ERGONOMIC LOADING HEIGHT
- No bottle change parts required
- BOTTLE IONIZATION AND CLEANING INCLUDED AS STANDARD
- INTEGRATED FALLEN/UPSIDE DOWN BOTTLE REJECTION STATION RETURNS BOTTLES TO BULK HOPPER
- Digital indicators and scales for all change over points
- Available with advanced bottle cleaning system

HMI

B&R Control System with color touch screen hmi

- RECIPE DRIVEN TOOL-LESS CHANGE OVER
 WITH ALL PARAMETERS STORED BY FORMAT
- MACHINE I/O DISPLAY AND DIAGNOSTICS
- ALARM HISTORY
- PRODUCTION STATISTICS
- PASSWORD PROTECTED SECURITY

Bottle Range						
	Min.			Max.		
	Length	Width	Height	Length	Width	Height
Round	30 mm	30 mm	40 mm	115 mm	115 mm	200 mm
	(1.18")	(1.18")	(1.57")	(4.52")	(4.52")	(7.87")
Rectangular	30 mm	30 mm	40 mm	115 mm	115 mm	200 mm
	(1.18")	(1.18")	(1.57")	(4.52")	(4.52")	(7.87")
Square	30 mm	30 mm	40 mm	115 mm	115 mm	200 mm
	(1.18")	(1.18")	(1.57")	(4.52")	(4.52")	(7.87")

Output Speed	up to 300 bpm			
Power	208 VAC, 3 ph, 60 hz, 30 A 400 V, 3 ph, 50 hz, 15 A			
Compressed Air	340 lpm., 5.5 bar.
