VarioSeal

Adaptive bag sealing

The VarioSeal is a versatile bag closing machine that improves efficiency in various applications. Whether used as a standalone machine or integrated into an existing packaging line, the VarioSeal closes bags quickly, reducing manual labor and boosting productivity. Bags of varying sizes are intuitively sealed without a need for a recipe change. It has a wide range of options, such as an integrated checkweigher, box taper and inkjet printer for bags, making the VarioSeal a valuable asset in packaging processes.

**No need for automatic adaptive bag sealing?

video about the
VarioSeal!

Fully automatic

Full automatic adjustments, no manual settings

Extremely versatile

The machine has a big variety of options, like label printing, case top closing and check weighing

Lowest cost

Guaranteed lowest total cost of ownership

5 steps

How the VarioSeal works

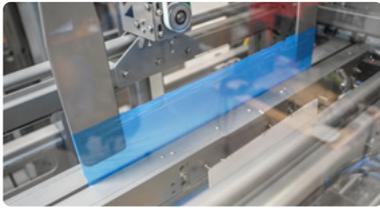

1 Box positioning

2 Box lifting

3 Bag spreading

4 Bag sealing

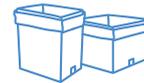

5 Optional: box closing
