

OTTEVANGER
MILLING ENGINEERS

Vertical mixers

General

The vertical mixers are used to mix different raw materials and powdered products.

These mixers are used:

- » upstream of hammer mill installations
- » upstream of pelleting and extruder lines

Vertical pre-mixers are used in the:

- » animal feed industry
- » pet food industry
- » aqua feed industry
- » rendering plants
- » sugar factories (beet pulp)
- » organic fertiliser
- » chemical industry

Options

- » stainless steel

Type	Volume (l)	Diameter A (mm)	Trough thickness (mm)	Cover thickness (mm)	Motor output (kW)
VM 500	500	1.000	3	3	4
VM 1.000	1.000	1.000	3	3	5,5
VM 2.000	2.000	1.500	3	3	7,5
VM 4.000	4.000	1.500	3	3	11
VM 6.000	6.000	2.000	3	3	11
VM 8.000	8.000	2.000	3	3	15
VM 10.000	10.000	2.000	3	3	15
VM 12.000	12.000	2.000	3	3	18,5
