

# ROSIN PRESSES

Root Sciences is proud to be the exclusive vendor of Sasquash's industry-leading rosin presses. Whether you're combining it with one of our solventless extraction systems or want a stand-alone press, all models embody reliability, performance, and innovation. Manufactured in Southern California, Sasquash's presses come with a Limited Lifetime Warranty, ensuring that our customers receive only the best. The selection caters to the diverse requirements of solventless extraction enthusiasts (Standard Series) and commercial producers (Pro Series) alike, ensuring that every client finds the ideal solution for their pressing needs.
