

# wePACK 4000

## Product details

- Packaging solution for medium performance classes
- Particularly suitable for MAP, vacuum and standard skinning applications
- Can be fully integrated in to Weber line solutions

[View online](#)

## Weber wePACK4000: for medium production volumes of up to 100 packages per minute.

The new, compact thermoforming packaging machine Weber wePACK 4000 is perfect for medium production volumes of up to 100 packages per minute in typical slicing applications. This thermoformer complements the Weber solution portfolio perfectly, now offering a solution for medium performance classes in addition to the high-end thermoformer wePACK 7000. In particular, for full range retailer and food producers who produce smaller batches, the wePACK 4000 is the ideal choice. The new Weber thermoformer is very accessible for ease of service and maintenance. Thanks to the use of a special gas flushing system for MAP applications, the wePACK 4000 is able to cut down waste and save resources.

- Use of servo technology for the main transport chain drive
- More sustainability due to a special gassing system: the trim on the bottom film side is reduced by approx. 50 %, and the trim on the top film side is even completely eliminated.
- Use of the control and operating technology common for all Weber machines
- Integration of Weber PaperTech technology for optimized processing of fiber-based films

# Technical Data

## Machine

Machine length	modular; customized
Machine width	up to 1200mm
Loading area	customized
Loading area knee free	upon Request
Bottom film width	280 - 560 mm, in 10 mm steps
Top film width	up to 560 mm
Max. index length	up to 650 mm
Max. pack depth	up to 120 mm / 150 mm
Tool top lift forming / sealing	No / No

## Performance

Cycle Speed	approx. 5 - 15 cycles/min
Film material thickness	up to 600 mic.
Top film reel Max diam.	1x or 2x 400mm; 1x 500 mm
Bottom film reel Max diam.	1x or 2x 400 mm; 1x 500 mm; 1x 800 mm jumbo
Reel core diam.	3" or 6" cores

## Applications

Air

Vacuum

Modified  
Atmosphere

Shrink

Skinpack

PaperTech

Weber means: service across the board.

#### Weber Academy.

##### Maximize line performance through professional training courses.

At the Weber Headquarter in Breidenbach, Germany, we have our own training center, the Weber Academy. Being a provider of complete line solutions, we offer training courses for your Weber Line, tailored precisely to your needs. In doing so, our focus is always on increasing efficiency and optimizing profit in your company.

#### Weber Guardian.

##### A safe plan for your production.

Only those who listen can understand. And those who understand can act. With our Weber Guardian program, we harmonize people, machines, and processes to get the most out of production. From preventive maintenance and inspection through targeted personnel development to production support and optimization.

#### Weber Portal.

##### Networked thinking, handling together.

You will find everything about your Weber equipment bundled in your personal Weber Portal. Compact, individual and interactive. From your customer profile and that of your machines to e-learning on your setup as well as convenient spare parts ordering and service offers. Are you already registered?
